

# Kids Science UPCYCLED FLOWER PLANTER

## Materials Needed:

- Empty Cartons
- Scissors
- Soil
- Seeds or Plant

## Instructions:

- 1 Rinse the empty carton and let it dry.
- 2 Carefully cut out one side of the carton using scissors.
- 3 Fill the carton with soil, plant your seeds or plant, and watch them flourish!

## Questions to Ask:

- 1 How far apart and how deep should we plant the seeds?
- 2 What do you predict will happen to the seeds?
- 3 How many days until we should see seedlings emerge?
- 4 How do we help the seeds grow?
- 5 Why does it take it so long to grow?
